Web Construction Details

Do you already have a domain registered? If yes please supply name here.

If yes then give Domain Name : -

Usurname : -

Password : -

Please try and give us as good as possible idea of what you want – remember that this is only an indication of what you want and that this information is only to assist us in obtaining an impression of what you have in mind. If you don't know what you want just leave the information box blank and we will give you a proof to work on. Of course it helps should you have an idea of how your site should look. We will always make recommendations should we think otherwise, yet you will always get what you ask for.

Please supply us with 5 different names for your URL if you do not know if the URL that you want already exists - We suggest that you stay with co.za hosting if your company is based in South Africa. Yet we can do any of the other backbone registrations should you wish. To check for available co.za hosting names go to – co.za – Don't type anything else. In your browser type **co.za** only. (NOT IN GOOGLE) Then click on “Who is? “ You can enter the name that you prefer here to see if the site exists and who it belongs to. This normally is a lot of fun. Remember to keep your domain name as short as possible. Search engines don't really use domain names to function, but rather the contents, so you can easily shorten names. Enjoy!!!

Preferred URL Names: (Only one should you be sure that the URL does not exist.)

Number of HTML Pages: (These are fixed pages and not part of a Blogg. To make changes on these pages need a proffesional web designer and takes certain amount of skill. These are your fixed pages such as your Home page, About us, Contact us ext. Please give us an indication of what your requirements are and what you would like to call these pages. Please mark if page is a sub. Page and should be under another page.

Sql Attachments

Sql Attachments are your freestanding attachments such as Galleries, Guest books, Forums ext.. Sometimes these would be part of the HTML pages and sometimes not – it really depends if the client wants to make day to day changes to these pages himself or not. Such as changing or replacing pictures. This takes a small amount of training and the right software.

Anyway we will help you decide. Let us have an idea of what you have in mind. Or let us work it out for you ourselves.

Mail Addresses

Please let us have a list of email addresses that you would like to have enabled. The number of email addresses that your domain will support really depends on the hosting package that you have subscribed to.

Website Script information

Please note that we need the script for each page that you have requested, we will rewrite the wording should you want us to, but we need you to give us the basic information regarding your business and highlighted area's

We also need you to supply us with the necessary decent quality pictures and photographs that you wish displayed on your website.

We need you to supply us with pictures of your business stock items should your company be in the retail business.

What should your site look like? Industrial, Corporative, Animated, colourful ext.

What should your colour scheme be?

Special Requests

Should you have any special requests please state them here.
